Alex Rivera

Full-stack developer · alex@example.com · github.com/example · Lisbon, Portugal

Summary

Developer with six years of experience building web apps in TypeScript and Python. I like small teams, readable code and shipping features users actually notice.

Experience

Senior Developer — Northwind Apps

2022 – present

- Led the rewrite of the billing dashboard in React, cutting page load from 4.1 s to 1.3 s.
- Designed a job queue that processes 2 million documents a day.
- Mentored three junior developers through their first production releases.

Developer — Blue Harbor Studio

2019 – 2022

- Built REST and GraphQL APIs for 12 client projects.
- Introduced automated tests and CI; release bugs fell by half within a year.

Projects

- **md-notes** — open-source note app with offline sync (1.8k stars).
- **tiny-metrics** — a 4 kB analytics script that respects Do Not Track.

Skills

Languages	Frameworks	Tools
TypeScript, Python, SQL	React, Next.js, FastAPI	PostgreSQL, Docker, AWS

Education

BSc Computer Science — University of Porto, 2019
